

Anna Kladova Bohun

Full Stack Web Developer

Work Experience

10.2018-02.2023 **Front End Development**

Self-employment Mini job

I have developed a private Client Manage System in the beauty industry which is used on daily basis by a leading company in the UK.

This system receives hundreds of leads daily from other frontends and systems.

It allows to manage those leads, performs automation filtering and tries to detect fraud leads or duplicates, and deletes them automatically.

It also sends those approved leads further in the pipeline. With its help, the client requires to invest less time in lead management and has a better overview, thanks to a small custom statistic engine.

10.2011-08.2018 **Business Development**

Sofrino, Lda

I was responsible for finding new clients, making some very basic **Front End** services based on existing templates and **testing mobile applications**.

Course

10.2022-02.2023 **Full Stack Web Development Bootcamp**

WBS coding school

I was recently graduated from the **Full Stack Web and App Development Course** of **WBS Coding School** which is reported to be Best Coding Bootcamp 2023. During this Bootcamp I had opportunity to create a bunch of **Web Applications** using **HTML, CSS, Javascript**, and it's library **React**, I had also opportunity to work with both SQL Database (**PostgreSQL**) and noSQL Database(**MongoDB**), some **CSS Frameworks** such as **Bootstrap, MUI**, In the final project in the Bootcamp I also had opportunity to work with **Figma and AWS Amplify and Google maps**

Relevant Skills

- HTML/CSS/JavaScript
- React.js
- PostgreSQL/MongoDB
- Bootstrap, MUI
- Figma/AWS Amplify
- Google maps
- Git/Github
- Deployment on Amplify and Elastic Beanstock
